

GOLD COAT

THE GOLD STANDARD OF RESISTANCE

THE TREATED WOOD CONNECTOR

USP Structural Connectors offers anchors, hangers, framing angles, straps, and fasteners in Gold Coat for 2x the corrosion resistance protection. Gold Coat is a multi-layer protection system that protects the integrity of the structural connector by offering two layers of corrosion resistance. The top layer is a specially formulated organic polymer barrier designed specifically for outdoor applications and contact with treated wood.

Finish: Gold Coat
Required Fastener: Gold Coat fasteners
Benefits:

- Double layer corrosion barrier for extended life
- Distinctive color for contractors/inspectors
- Concealing color for homeowners

Installation:

- Reference USP's Full Line Catalog for fastening requirements, allowable loads, and installation instructions.
